Art Unit: 2818

## Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Group I, Claims 1-51, drawn to an apparatus of forming material on a substrate, classified in class 257, subclass E21-17.
- II. Group II, Claims 52-108, drawn to a method of forming a material on a substrate, classified in class 438, subclass 778.
- 2. The inventions are distinct, each from the other because of the following reasons:
- 3. Inventions I and II are related as apparatus and product made. The invention in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that product as claimed can be made by another and materially different apparatus (MPEP 806.05(g)). In this case, group II invention would not necessary imply unpatentability of the group I since the device of group I inventions could be made by a product different from those of group II. For example, etching the mask layer and the substrate to form a first opening in the substrate instead of patterning.
- 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by either different classification, restriction for examination purposes as indicated is proper.
- 5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement to be traversed (37 CFR 1.143).
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
- 7. Any inquiry concerning this communication or earlier communication from the examiner should be direct to Phuc T. Dang whose telephone number (571) 272-1776. The examiner can normally be reached on Monday through Friday from 8:00am to 5:00pm.

Phuc T. Dang
